

Jose Ignacio Ordóñez Muino

Creative Technologist / AI Product Designer / Brand Developer / Founder
New York, NY
JNASHNETWORK@GMAIL.COM

PROFILE

Independent product creator turning raw ideas into AI-powered products, visual systems, automations, dashboards and functional prototypes.
I also develop logos, color systems, brandbooks and cinematic stories.

SELECTED WORK

Ink Flow - Multi-tenant tattoo studio SaaS foundation with onboarding, dashboard operations, CRM, audit logs and Supabase-ready architecture.
Jarvis Command Center - Voice-forward AI command interface with lanes, runtime cards, model controls, speech modes and OpenAI/Hermes routing.
Shadow - Future-self coaching prototype built around Mirror, Architect and Commander modes, diagnostic onboarding and AI-ready memory paths.
Prop Account Rotator - NinjaTrader add-on architecture for one-account rotation, risk controls, execution routing, dashboard state and simulation.

SUPPORTING WORK

Hermes / Personal Agent, iTrade App, Duality Wellness Web, Pakito Nitro, Cuadrante Facil and Nasty Nash Arcade.

BRAND, VISUAL IDENTITY & MOTION

End-to-end brand development: logos, aesthetics, color palettes, brandbooks, Photoshop asset production and professional Adobe Premiere Pro editing.
AI character development and narrative-driven stories for branded content.

SKILLS

AI-assisted product building, product architecture, prompt direction, workflow automation, interface systems, dashboard design, prototype testing, brand direction, React/Next.js direction, Supabase-ready workflows, brandbooks, Photoshop, Adobe Premiere Pro, AI characters and storytelling, Telegram integrations and NinjaTrader product logic.
